Luin Interrealm Ltd., United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Are you unable to embrace the tenets of a traditional belief-based reality view? Do you find yourself increasingly skeptical about the latest scientific proof that reality is more fantastical than we've ever suspected? Are you tired of being told that the truth about what's real is inherently unknowable? If so, then maybe you're an AutoGenesisist? What's an AutoGenesisist? Perhaps it's best to take a look at what an AutoGenesisist understands at a deep level. An AutoGenesisist understands that: * There is a fundamental real * Faith-based conjecture is not confined to ecumenicism * Defining reality is not a casual venture * A paradox is an indication of theoretical failure * Human perception is not reality AutoGenesisism is the first full examination of the true nature of reality to be offered in centuries. It leans on no prior Theory of Everything, even as it successfully bridges every open chasm that exists between so much of what's become truly settled science in a way that finally reveals the stable structural coherence that's always been the basis of reality. With unprecedented specificity and painstaking attention to detail, AutoGenesisism: A Rational Theory of Everything takes on the biggest and most intractable questions that our own human race has ever confronted [Aristotle's final cause, the actual instant of initial physical emergence (genesis), the true material quantum, the physical properties of human consciousness, and the surprising reason for Time itself] while making a powerful case that, when all is finally revealed, reality is probably going to turn out to be a lot less confounding than the world's greatest minds could have ever imagined.
