

Surviving Sudden Environmental Change: Answers from Archaeology

By -

University Press of Colorado, United States, 2012. Paperback. Book Condition: New. Original. 226 x 152 mm. Language: English . Brand New Book. Archaeologists have long encountered evidence of natural disasters through excavation and stratigraphy. In *Surviving Sudden Environmental Change*, case studies examine how eight different past human communities-ranging from Arctic to equatorial regions, from tropical rainforests to desert interiors, and from deep prehistory to living memory-faced and coped with such dangers. Many disasters originate from a force of nature, such as an earthquake, cyclone, tsunami, volcanic eruption, drought, or flood. But that is only half of the story; decisions of people and their particular cultural lifeways are the rest. Sociocultural factors are essential in understanding risk, impact, resilience, reactions, and recoveries from massive sudden environmental changes. By using deep-time perspectives provided by interdisciplinary approaches, this book provides a rich temporal background to the human experience of environmental hazards and disasters. In addition, each chapter is followed by an abstract summarizing the important implications for today's management practices and providing recommendations for policy makers. Publication supported in part by the National Science Foundation.

Reviews

Simply no terms to explain. I am quite late in start reading this one, but better then never. Its been written in an remarkably easy way and is particularly merely soon after i finished reading this book where basically changed me, affect the way i really believe.

-- Prof. Jedediah Kuhic DVM

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.

-- Estrella Howe DVM
