Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Language Through Nature, Literature, and Art The first purpose of this book is to suggest subject-matter a of genuine interest to children, and which of itself is worth while. A second purpose is to indicate such treatment of the subject-matter that the language used in the lessons will be the expression of real thought, and the formation of correct habits a natural result. No claim is made to originality in subject-matter, but an effort has been made to select material which is suited to the changing conditions of the seasons and common to many localities. Related lessons have been arranged in groups so as to arouse an interest in many phases of the subject and to broaden the child s experience. This grouping also demands natural repetition of vocabulary and consequent familiarity with its form. While lessons on nature study, stories, poems, and pictures have been so grouped, it has been the aim to treat each of these so that it would make its own legitimate appeal, and the peculiar value of each experience be gained by the children. In developing each subject, many topics have been presented to meet varying conditions and interests. It is not expected that one pupil or class will necessarily follow all the lines indicated, but that those will be selected which appeal to past experience or which stimulate to further activity.
