Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Outlines of Metaphysics The chief difficulty of such an attempt lies in the necessity of combining two requirements that appear almost incompatible with one another. A text-book that is to be of any real value to the student must be alive. To point to the various problems as if they were speci mens in a museum, would obviously be to fail entirely in the object that is aimed at -viz., that of bringing out the vital relationships of the various points that have to be considered. On the other hand, a text-book of this kind must not aim at superseding, in the minds of those who use it, the works to which it is an intro duction. I have kept both these points steadily in view; but I can hardly hope that I have been completely successful in avoiding the dangers to which I refer. My aim at least has been to produce a book which is a living unity within itself, and which yet points continu ally outwards to the larger life of the speculative thought of the world. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
