VDM Verlag Aug 2009, 2009. Taschenbuch. Condition: Neu. This item is printed on demand - Print on Demand Neuware - Land degradation highly affects the sustainability of agricultural production, food security and ecosystem services in the natural environment. Various attempts have been made to assess land degradation at multiple spatial scales from local to global. Prior methodologies, in general, show a strong bias towards assessing only biological and physical factors of land degradation, ignoring the equally significant social and economic...
